**SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Pursuant to 37 C.F.R. §1.97, Applicant hereby calls the Examiner's attention to documents listed on the attached form, which documents may be material to the examination of this application. Copies of the references are enclosed herewith for the Examiner's consideration.

**REFERENCES CITED HEREIN**

The references cited herein were first disclosed by Applicants in an IDS filed on October 27, 2003. Each of these references was either previously submitted or was cited by the

Patent Office in parent application 09/469,510, filed December 22, 1999, which is relied upon for an earlier filing date under 35 USC 120. Therefore, under 37 CFR §1.98(d), it is not necessary to file these references. However, to ensure that these references are considered, Applicants are now submitting a copy of each foreign reference and publication for the Examiner's entry and consideration.

No inference should be drawn that the attached list sets forth a comprehensive investigation of the prior art, that any or all are pertinent to the invention, or that any apparatus disclosed is equivalent to the subject invention.

The citation of the above-discussed documents is not to be construed as an assertion that more pertinent art could not possibly be in existence. Citation of any document herein is not to be construed as an admission that any subject matter disclosed in the document is necessarily within the inventive field of endeavor, that any disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that any disclosure is otherwise necessarily prior art with respect to the instant invention.

Applicant also respectfully reserves the right to later set forth how the instant invention is distinguished over the disclosure of any document or other art, including the disclosure

of those documents discussed herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.

FEE

Applicants do not believe a fee is due for this IDS as this IDS and references were already properly submitted and cited. However, if any fee is required for this IDS, please charge our Deposit Account No. 50/1039.

Respectfully submitted,

---
